7. CHARGES CLAUSES

There are charges payable to us for providing and administering the Trust Plan. Details of such charges are described below.

7.1 Trust Plan Fee

A monthly fee of SGD 10 shall be charged by deducting the relevant amount from the Contributions before purchase of Assets in accordance with our latest record of your Asset Choice selection. This fee is applicable for the entire duration of the CPT. If the Trust Plan is in "Paid-Up" status, this fee shall be charged by deducting the Units in the Accumulation Account; if there is not enough Units to be deducted, this fee will be accrued and then be

- (i) collected from the Contributions when further Contributions are made,
- (ii) charged to the Encashment Value upon termination of Trust Plan or
- (iii) deducted from the Account Units upon maturity of CPT; whichever is applicable.

7.2 Trust Settlement Charge

(For Regular Contribution and Additional Regular Contribution only)

The current Trust Settlement Charge is charged on the Regular Contribution and any Additional Regular Contribution in the Initial Account for the entire duration of the CPT. This charge shall be paid upfront for the whole CPT and will be deducted during its relevant CPT of the relevant Initial Account by cancelling the units to be allocated for the Initial Account. The monthly Trust Settlement Charge is 0.5% of the Initial Account value at month end and is payable as at the first calendar date of the following month.

Upon receiving the completed application, Metis will conduct its Know Your Client, Anti-Money Laundering and Due Diligence. The Trust Settlement Charge is for our obligations throughout ICP once the Trust Plan is in force and the respective Contribution within ICP is verified by Metis. Metis will recognize the non-refundable upfront Trust Settlement Charge after verifying the Contribution received.

In terms of deduction of this charge in notional units, it will be accrued and deducted on a monthly basis.

7.3 Administration Charge

- (a) A monthly charge will be imposed on the Accumulation Account based on its value at month end and is payable as at the first calendar date of the following month. This charge is applicable until the termination of the Trust Plan and shall be paid by cancelling the Units in the Accumulation Account. The current Administration Charge is set at 0.15% per month until the end of CPT and 0.10% per month thereafter.
- (b) If the Units in the Accumulation Account are insufficient for such deductions, then the deduction will be made from the Initial Account.

7.4 Contribution Charge (for Additional Single

Contribution only)

The current charge for each Additional Single Contribution is 5% of the Additional Single Contribution made. This is a one-off upfront charge for each Additional Single Contribution to the Trust Plan.

7.5 Exit Charge

- (a) The Exit Charge is chargeable upon (i) Termination as per Clause 2.6 within CPT and (ii) non-payment of Additional Regular Contribution within ICP of the Additional Regular Contribution.
- (b) In relation to Regular Contribution, the Exit Charge Rate is 100% in the first Trust Plan year. Starting from the second Trust Plan year, please refer to the table below for the applicable Exit Charge Rate; in relation to Additional Regular Contribution, the Exit Charge Rate is 100% in the first year where the Additional Regular Contribution started. Starting from second year, please refer to the table below for the applicable Exit Charge Rate.
- (c) The Exit Charge Rate is dependent on the number of remaining year(s) in the CPT with respect to Termination. In the case of non-payment of Regular Contribution/Additional Regular Contribution during ICP, the number of remaining year(s) in the CPT will be calculated from the date the last Regular Contribution/Additional Regular Contribution is received.

For the purposes of determining the Exit Charge Rate, each incomplete year remaining in the CPT will be rounded up to a complete year. To illustrate, a remaining CPT of 11 years and 1 month will be regarded as 12 years for the purposes of computing the Exit Charge Rate.

Table 7.5: Exit Charge Rate

Remaining years in CPT	Exit Charge Rate	Remaining years in CPT	Exit Charge Rate	Remaining years in CPT	Exit Charge Rate
30	100	20	74	10	50
29	90	19	71	9	47
28	88	18	69	8	44
27	86	17	66	7	40
26	84	16	64	6	35
25	83	15	62	5	30

23	80	13	58	3	20
22	78	12	56	2	15
21	76	11	54	1	8

- (d) The Exit Charge shall be paid by cancelling the Units in the Initial Account. The Exit Charge is equal to (i) the applicable Exit Charge Rate (as shown above) multiplied by (ii) the Initial Account Value as at the date the Units are cancelled.

7.6 Switching Fee

There is currently no switching fee for changing Asset Choices. However, we reserve the right to introduce and revise this from time to time. We will not impose a switching fee in the event of an involuntary investment switch where we close a relevant Asset.

7.7 Charges within the Asset

Asset charges are dependent on Asset Choice and based on the range of Assets available in our International Asset Selection. For further information please refer to the individual Asset prospectus, published by the respective Asset Manager / Issuer / Dealer.

7.7.1 Annual Management or Storage Charge

This charge is determined by the Asset Managers / Issuer / Dealer and may be varied from time to time. This charge may be charged directly from the Asset and reflected in the relevant Unit prices; otherwise, you may be required to pay this charge separately.

7.7.2 Bid-Offer Spread

'Offer Price' is the price you pay for a Unit to be allocated to the Plan. The 'Bid Price' is the price at which we cancel a Unit from the Trust Plan. The difference between the offer price and bid price in a Fund or Structured Product or Commodity is the bid-offer spread which is effectively a charge which you pay to the Fund Manager, or Product Issuer or the Commodity Dealer, the spread will vary among different Funds and Structured Products and Commodity.

- (a) Currently for all Funds in the International Asset Selection, the Bid-Offer spread is nil. Details of each Fund under the Trust Plan can be found from prospectus of the Fund. However, there may be Bid-Offer spread for the Structured Products and Commodity and the actual charges will be subject to the announcement of the product details of each Structured Product or Commodity dealer.
- (b) We reserve the right to charge a Bid-Offer Spread which reflects the redemption charge applied by the corresponding Fund Managers or Product Issuer or Commodity dealer if and when they amend their charging structure.

7.7.3 Early Redemption Charge

This charge is determined by the Asset Managers / Issuers / Dealers and may vary across different Assets. The charge may be applied when you redeem or switch out from the Assets within the required holding period, if any. For further information, please refer to the fact sheet and/or prospectus of the respective Assets published by the Asset Managers / Issuers / Dealers.

7.8 Currency Exchange Charge (if Applicable)

See Clause 2.4 above.

7.9 Other charges (if Applicable)

Any fees or transmission charges otherwise incurred as a result of or in respect of the Trust Plan will be paid by cancellation of Initial Units or the Accumulation Units

7.10 Revision of Charges

We reserve the right to vary the charges contemplated under Clauses 7.1 to 7.6 by giving you not less than three months' prior notice in writing, or such other period of notice in compliance with the relevant regulatory requirements.

In the event that the relevant Asset Manager / Issuer / Dealer varies the charges or imposes new fees under Clauses 7.6 to 7.9, we will notify you in writing of such changes within 30 business days of us being notified of such changes by the relevant Asset Manager / Issuer / Dealer.

8. ASSET CLAUSES

We make available a number of Assets for your selection ("**Asset Choice**"). The Assets available for your selection are listed in our International Asset Selection and this list is subject to amendment by us from time to time. We will not be responsible for any loss that you may suffer or incur as a result of or in connection with such information.

The risks relating to your investment decisions and any change in market value of the Trust Plan are borne by you under this reserved power trust. You are advised to take due and careful consideration of those decisions and obtain the independent advice which you may consider necessary in entering into the Deed and making decisions under the Trust Plan.

If any Asset is valued in a currency other than the Valuation Currency, its value will be converted into the Valuation Currency at the prevailing exchange rates (as determined by us in our sole and absolute discretion).

8.1 Assets

Whilst we may provide information relating to your Asset Choices investment object, dealing day, intended investment, investment restrictions, duties and charges, we will not be responsible for any investment performance of this Asset(s).

We, as Trustee will purchase, hold or sell, or do so through a nominee, Units in the Trust Plan Account in accordance with our latest record of your Asset Choice selection. In this regard and for the avoidance of doubt, we will transact with the relevant third parties as a principal and not as your agent. You understand that the Units will be registered in the name of Metis or a nominee designated by us. For the purpose of valuation of the Trust Plan, the allocation of Units of an Asset to reflect the Asset Choices of the Trust Plan is notional.

The return on your Asset Choice may be lower than the return on the Assets due to charges in respect of the Plan. The individual Notional Unit holding can be separately identifiable under the Trust Plan record on the Metis administration system. You can at any time request a valuation of these Notional Units, which will be based on the latest available Unit price provided by the respective Fund Managers / Issuers / Dealers.

8.2 Units

Notwithstanding any other provision of the Deed, we shall not be held responsible for any delay or failure to purchase or dispose of any Units for the Trust Plan if the failure or delay is due to or caused by events or circumstances beyond our control including, without limitation, public holidays in the places in which our custodian bank or any of the Assets or their Asset Managers / Issuers / Dealers or Outsourced Service Agents/Contractors are located.

A transaction request received by Metis at or before the cut-off time on a business day will be processed according to the Unit Prices of the Assets and prevailing exchange rates (as determined by us in our sole and absolute discretion) on the next appropriate Valuation Date following the date Metis accepts the request (T+1). Any transaction request received after the cut-off time on any day will be processed as if the transaction request was received by Metis on the next business day. We have the right to change the cut-off time at any time at our sole and absolute discretion.

8.2.1 Allocation of Units

Units ("**Initial Units**") purchased with Regular Contribution and Additional Regular Contribution within their ICPs will be allocated to the Initial Account; including Extra Allocation, if any. Units ("**Accumulation Units**") purchased with Regular Contribution and Additional Regular Contribution after ICP and/or Additional Single Contribution (made anytime) will be allocated to the Accumulation Account; including Loyalty Bonus, if any. All Initial Units will be converted into Accumulation Units upon the end of CPT.

8.2.2 Cancellation of Units

All relevant fees and charges payable under the Trust Plan are paid by cancelling sufficient Units in the Trust Plan Account as per Clause 7. The number of Units to be cancelled will be calculated at the Offer Price of the Asset at the next appropriate Valuation Day or by using the prices available to us and such Units will be cancelled in accordance with our latest record of your Asset Choice selection.

8.2.3 Dealing in Units

Metis and entities associated with us and any of its officers, directors and employees and any other person, whether or not acting for itself, may purchase, hold or sell, or do so through a nominee, Units, with the same rights as it would have had if the Trustee were not acting as Trustee and shall be entitled to retain and shall not in any way be liable to account to you or any other person for any profit made or share of brokerage or commission or remuneration or other amount or benefit received thereby or in connection therewith

8.3 Asset Switch

While the Trust Plan is in effect, you may apply to switch Units from any Asset to another Asset listed in the International Asset Selection, subject to dealing guidelines notified to you by Us from time to time. You may make any number of switches provided that the amount to be allocated on each Contribution in relation to each Asset Choice within a Trust Plan must be equal to or more than the Minimum

Allocation and in accordance with the following Clauses:

- (a) We only accept instructions for asset switches in a percentage which can be expressed in whole numbers. In this event, the same proportion of both Initial Units and Accumulation Units will be cancelled, if no specific instruction has been given
- (b) Following a switch, future Contributions will continue to be allocated in accordance with our latest record of your Asset Choice selection.
- (c) In the event that the Account Units representing one Asset Choice are switched to Units representing another Asset Choice, the relevant charges due to be paid by the old Units will be paid by the newly created Units instead.
- (d) If the Units to be sold are denominated in a different currency to the Units to be purchased, we will convert the sale proceeds into the currency of the Asset in which Units are to be purchased at the prevailing exchange rates (as determined by us in our sole and absolute discretion) at the time of conversion before purchasing the relevant Units.
- (e) The Asset Choice switching will also be subject to any other administrative rules determined by Metis from time to time.
- (f) We may, upon giving you not less than three months' notice or such other period of notice in compliance with the relevant regulatory requirements, impose a charge for Asset switches and/or limit the number of Asset switches. However, we will not impose this fee in the event of an involuntary Asset switch where a fund manager closes a relevant Fund or terminate or cease to subscribe for a Structured Product or cease to own a Commodity.

8.4 Holding Account

Metis maintains a Holding Account to hold monies temporarily where it is not possible to invest new Contributions or switch proceeds immediately into the target Asset Choice, due to dealing frequency or time lag between Asset switching. We will endeavor to allocate the relevant Units to the Initial Account or Accumulation Account as soon as possible. The Holding Account is under custody by our custodian bank.

8.5 Excess Cash Account

Metis maintains an Excess Cash Account to hold the excess contributions paid by the Settlor (or the payer of the contribution nominated by the Settlor) during the CPT. The excess contributions in the Excess Cash Account can only be withdrawn upon full encashment of the Trust Plan. No interest will be credited in the Excess Cash Account.

9. FATCA

Under the U.S. Foreign Account Tax Compliance Act, or FATCA, all non-United States entities in a broadly defined class of financial institutions (FIs), are required to comply with an expansive documentation and reporting regime, or, beginning from July 1, 2014, be subject to a 30% United States withholding tax on certain U.S. payments constituting "withholdable payments" (beginning in 2017, a 30% withholding tax applies to gross proceeds from the sale of assets which could produce withholdable payments and foreign passthru payments). Certain passive non-U.S. entities which are not FIs are required to either certify they
